## PLR usage

If you invested in the PLR version of **Profitably Convenient Fingertip Daily WSOs**, you have the source document available.

Some customizing ideas include:

- You can change the headers and footers to reflect your site/ads, etc.
- You can change Honorable Samurai to your own mascot and change the links to reflect to your affiliate ID.
- You can slice up the report into specific chapters and create individual reports.

Now, all of the links in **Profitably Convenient Fingertip Daily WSOs** are cloaked<sup>1</sup> – they specifically go to pages at <http://www.dailywsos.com>. However, you can edit the link to reflect instead your own cloaked link on your own server.

In the official **Profitably Convenient Fingertip Daily WSOs** product zip, you have a directory entitled “links”. Within that directory is the subdirectory “discover”, and under that....are all of the cloaked links you'll find in this report. You don't even have to search them up at the Warrior Plus forum; I've cloaked them for you!

1 Visit [Beginners Affiliate Marketing Tips for Power Starts](#) for more info about link cloaking.

you can simply change<sup>2</sup> the affiliate ID to your affiliate ID in all the files, upload the “discover” directory to your server, and then edit the PLR to reflect your domain.

Your Warrior Plus affiliate ID is the last batch of numbers that show up after your affiliate link. So, let's say that one of your affiliate links is

<http://www.warriorplus.com/linkwso/x1msjm/18217>

Your Warrior Plus affiliate ID would be 18217.

Now, that happens to be my WarriorPlus affiliate ID (*I wanted to give you a working example*). Thus, you would find your OWN Warrior Plus Affiliate ID, and then edit all the files within the links/discover directory like so:

**Replace 18217 with your WarriorPlus affiliate ID via the find/replace tool.**

To learn more about WarriorPlus affiliates, visit

<http://www.warriorplus.com/support/knowledgebase.php?category=5> .

With that, it's time to reveal the very best of the profitably convenient fingertip daily WSOs of September 2011! Turn the page and enjoy.

## **How One Bona Fide Warrior Marketer Did It (Fast Action Hero)**

### **How One Bona Fide Warrior Marketer Did It Benefits**

It gives you a 1 hour look at how one warrior marketer (Russ Ruffino) changed his mindset and made it big.

You get:

a 60-minute interview with Russ, detailing his rise from obscurity to Warrior Fame.

#### **It covers things like:**

- Why he chose product creation over affiliate marketing
- The importance of his going FULL-TILT into full-time Internet Marketing, despite not having the savings or I.M. earnings to back up that decision
- The mindset qualities that allowed him to create a lot of value more quickly than most newbies
- Some of the tactics he used for product creation, traffic generation, and such
- While Russ is squarely in the Make Money Online niche, he has differentiated himself by waking up and asking:  
"What tangible value can I add for my subscribers today?  
What real problem can I solve for my subscribers today?"

versus what he used to ask himself every morning:

"How can I make money today?"

That simple tweak has made a HUGE difference in the type of products he's created, the way he's communicated with his list, and the response he's received as a result.

#### **What you will not get is:**

- A specific quick-and-dirty tactic to make fast money

If I had to categorize the case study in a broad stroke, I'd position it as a "success mindset for fast results" case study.

The irony? Is that it doesn't involve secret tactics just being revealed for the first time ever. But it **does show** that the way Russ approached Internet Marketing, as a newbie, worked incredibly well.

It's at the very least a reminder and nudge back to the building of solid business fundamentals, for those of us caught in the loop of looking for the next "bright shiny object", next "holy grail solution", or the next "one ring to rule them all" WSO.

***This product is useful*** because you get straight from the horse's mouth, so to say, how one newbie became incredibly successful.

## Offline Marketing Made Simple

By the creator of [Social Frogs](#), this product focuses on building and selling awesome facebook fanpages for businesses (and outsourcing if necessary).

***This product is useful*** because it shows you how to sell quality Facebook Fan Pages to local businesses for offline marketing even if you don't do design work yourself.

To quote:

*...This is a course on building an offline marketing business.*

*The fanpage is just an example to show you the quality of the work you can be offering to your prospects within minutes of finishing reading this WSO.*

*On top of everything else included in the WSO, I reveal HOW I manage to sell these types of fanpages to businesses without knowing the technical side of it (coding).*

*I teach you HOW to outsource, and WHERE to find outsourcers. Now here comes the magic, ANYONE can outsource a fanpage like this to a dude in india, BUT he is still going to charge you over \$500 just to code it all from scratch.. & not only that but the return time is probably going to be over two weeks. Therefore your profit margin isn't really going to be all that..*

*(They aren't your average HTML marketer fanpages)*

Includes:

- Personal direct mailing/email texts
- 5 Text Modules
  1. Intro to Offline Success
  2. Outsourcing like a Champ
  3. Selling your Services
  4. Processing Payments
  5. Resources
- 2 Video Modules

## Unclaimed Fanpage Goldmine

### **Unclaimed Fanpage Goldmine Benefits:**

Shows you how to find local businesses that have not yet claimed their own Facebook Fanpage, enabling you to alert them and offer to create a Facebook Fanpage for them.

***This product is useful** because it shows you how to uncover local businesses that don't yet have a quality Facebook Fanpage to bring in customers.*

Includes Direct Sales letters, Postcard designs, 4 Step-by-step videos, more.

It's an excellent way to get local businesses' attention about how they can get more business via online marketing, Facebook, social media and more.

You can customize all of the professional products/templates above.

To quote:

*I was given a copy of this WSO to review and didn't really understand how it all worked. What I did understand is the potential behind finding hot leads. I'm kind of an impatient person when it comes to wanting to see some results. I didn't used to be but thats a whole different story.*

*So for me I found a local business who had a unclaimed listing. I went into that business on Wed 24th and this is how the conversation went: I asked the gatekeeper/girl at the desk. "Who does your marketing?" She said "I have no idea and I said so you don't have anyone?" The manager or other gatekeeper said "we don't have anyone doing marketing for us". I asked "when will the owner be in"? she said "tomorrow at noon". I asked her "can you call him real quick".*

*So she did and I talked to him on the phone and I asked about his marketing and he said no one. I told him "you have people looking for your business right now and they are promoting it for you but it's not doing you any good because you are not helping the people they are promoting it too". I said "you have a unclaimed page on FB and if someone else claims it they can damage your business"....*

***This product is useful*** because it shows you how to sell quality Facebook Fan Pages to local businesses for offline marketing even if you don't do design work yourself.

To quote:

*...This is a course on building an offline marketing business.*

*The fanpage is just an example to show you the quality of the work you can be offering to your prospects within minutes of finishing reading this WSO.*

*On top of everything else included in the WSO, I reveal HOW I manage to sell these types of fanpages to businesses without knowing the technical side of it (coding).*

*I teach you HOW to outsource, and WHERE to find outsourcers. Now here comes the magic, ANYONE can outsource a fanpage like this to a dude in india, BUT he is still going to charge you over \$500 just to code it all from scratch.. & not only that but the return time is probably going to be over two weeks. Therefore your profit margin isn't really going to be all that..*

*(They aren't your average HTML marketer fanpages)*

- Personal direct mailing/email texts
- 5 Text Modules
  1. Intro to Offline Success
  2. Outsourcing like a Champ
  3. Selling your Services

## **Unclaimed Fanpage Goldmine**

### **Unclaimed Fanpage Goldmine Benefits:**

Shows you how to find local businesses that have not yet claimed their own Facebook Fanpage, enabling you to alert them and offer to create a Facebook Fanpage for them.

***This product is useful** because it shows you how to uncover local businesses that don't yet have a quality Facebook Fanpage to bring in customers.*

Includes Direct Sales letters, Postcard designs, 4 Step-by-step videos, more.

It's an excellent way to get local businesses' attention about how they can get more business via online marketing, Facebook, social media and more.

You can customize all of the professional products/templates above.

To quote:

*I was given a copy of this WSO to review and didn't really understand how it all worked. What I did understand is the potential behind finding hot leads. I'm kind of an impatient person when it comes to wanting to see some results. I didn't used to be but thats a whole different story.*

*So for me I found a local business who had a unclaimed listing. I went into that business on Wed 24th and this is how the conversation went: I asked the gatekeeper/girl at the desk. "Who does your marketing?" She said "I have no idea and I said so you don't have anyone?" The manager or other gatekeeper said "we don't have anyone doing marketing for us". I asked "when will the owner be in"? she said "tomorrow at noon". I asked her "can you call him real quick".*

*So she did and I talked to him on the phone and I asked about his marketing and he said no one. I told him "you have people looking for your business right now and they are promoting it for you but it's not doing you any good because you are not helping the people they are promoting it too". I said "you have a unclaimed page on FB and if someone else claims it they can damage your business"....*

## **How One Bona Fide Warrior Marketer Did It (Fast Action Hero)**

### **How One Bona Fide Warrior Marketer Did It Benefits**

It gives you a 1 hour look at how one warrior marketer (Russ Ruffino) changed his mindset and made it big.

You get:

a 60-minute interview with Russ, detailing his rise from obscurity to Warrior Fame.

**It covers things like:**

- Why he chose product creation over affiliate marketing
- The importance of his going FULL-TILT into full-time Internet Marketing, despite not having the savings or I.M. earnings to back up that decision
- The mindset qualities that allowed him to create a lot of value more quickly than most newbies
- Some of the tactics he used for product creation, traffic generation, and such

- While Russ is squarely in the Make Money Online niche, he has differentiated himself by waking up and asking:

“What tangible value can I add for my subscribers today?  
What real problem can I solve for my subscribers today?”

versus what he used to ask himself every morning:  
“How can I make money today?”

That simple tweak has made a HUGE difference in the type of products he’s created, the way he’s communicated with his list, and the response he’s received as a result.

**What you will not get is:**

- A specific quick-and-dirty tactic to make fast money

**If I had to categorize the case study in a broad stroke, I’d position it as a “success mindset for fast results” case study.**

The irony? Is that it doesn’t involve secret tactics just being revealed for the first time ever. But it **does show** that the way Russ approached Internet Marketing, as a newbie, worked incredibly well.

It’s at the very least a reminder and nudge back to the building of solid business fundamentals, for those of us caught in the loop of looking for the next “bright shiny object”, next “holy grail solution”, or the next “one ring to rule them all” WSO.

***This product is useful because you get straight from the horse’s mouth, so to say, how one newbie became incredibly successful.***

## **How One Bona Fide Warrior Marketer Did It (Fast Action Hero)**

### **How One Bona Fide Warrior Marketer Did It Benefits**

It gives you a 1 hour look at how one warrior marketer (Russ Ruffino) changed his mindset and made it big.

You get:

a 60-minute interview with Russ, detailing his rise from obscurity to Warrior Fame.

**It covers things like:**

- Why he chose product creation over affiliate marketing
- The importance of his going FULL-TILT into full-time Internet Marketing, despite not having the savings or I.M. earnings to back up that decision
- The mindset qualities that allowed him to create a lot of value more quickly than most newbies
- Some of the tactics he used for product creation, traffic generation, and such
- While Russ is squarely in the Make Money Online niche, he has differentiated himself by waking up and asking:

“What tangible value can I ad for my subscribers today?  
What real problem can I solve for my subscribers today?”

versus what he used to ask himself every morning:  
“How can I make money today?”

That simple tweak has mad a HUGE difference in the type of products he’s created,  
the way he’s communicated with his list,  
and the response he’s received as a result.

**What you will not get is:**

- A specific quick-and-dirty tactic to make fast money

**If I had to categorize the case study in a broad stroke, I’d position it as a “success mindset for fast results” case study.**

The irony? Is that it doesn’t involve secret tactics just being revealed for the first time ever. But it **does show** that the way Russ approached Internet Marketing, as a newbie, worked incredibly well.

It’s at the very least a reminder and nudge back to the building of solid business fundamentals, for those of us caught in the loop of looking for the next “bright shiny object”, next “holy grail solution”, or the next “one ring to rule them all” WSO.

***This product is useful because you get straight from the horse’s mouth, so to say, how one newbie became incredibly successful.***

## **Create Local Niche Business Directories in WordPress**

### **WPLocal Benefits**

WordPress plugin that lets you add Google Maps, Directions, Coupons, more to upsell your offline services.

***This product helps you*** by letting you create a local business directory where companies can submit their business details for free – you can then followup with your own marketing.

To wit:

*"....Then you find companies that you HAVE NOT added...and you contact them...*

*I usually send them an email along these lines:*

*Hi there, We run a local [niche] directory and noticed that your business details were*

not listed. If you have 5 minutes spare please visit [www.yourlocaldirectory.com](http://www.yourlocaldirectory.com) and submit your details? It's totally free and will give you more EXPOSURE FOR YOUR BUSINESS. We'll add your company as soon as possible.

Kind Regards, Your Name.

What will happen is they will head over to your local directory, see that most of their competition is listed on it and add their companies details...these guys don't like missing out...

The real key to making this work is making sure that on your local directory you have links to some free information about various subjects that most of these companies are not aware of..."

Good stuff!

# Offline Marketing Made Simple

By the creator of [Social Frogs](#), this product focuses on building and selling awesome facebook fanpages for businesses (and outsourcing if necessary).

***This product is useful*** because it shows you how to sell quality Facebook Fan Pages to local businesses for offline marketing even if you don't do design work yourself.

To quote:

*...This is a course on building an offline marketing business.*

*The fanpage is just an example to show you the quality of the work you can be offering to your prospects within minutes of finishing reading this WSO.*

*On top of everything else included in the WSO, I reveal HOW I manage to sell these types of fanpages to businesses without knowing the technical side of it (coding).*

*I teach you HOW to outsource, and WHERE to find outsourcers. Now here comes the magic, ANYONE can outsource a fanpage like this to a dude in india, BUT he is still going to charge you over \$500 just to code it all from scratch.. & not only that but the return time is probably going to be over two weeks. Therefore your profit margin isn't really going to be all that..*

*(They aren't your average HTML marketer fanpages)*

Includes:

- Personal direct mailing/email texts
- 5 Text Modules
  1. Intro to Offline Success
  2. Outsourcing like a Champ
  3. Selling your Services
  4. Processing Payments
  5. Resources
- 2 Video Modules
